Full Stack Development Certification – *IBM* (15 August 2024 – 31 November 2024)
Full Stack Development Certification – *Meta* (22 July 2024 – 31 October 2024)
IBM AI Engineer Certification – *IBM(Coursera)* (10 August 2024 – Present)

PROJECTS

Chatboat - [Stegpearl Project]

- Designed an eCommerce website real-time user engagement with the chatbot for immediate assistance.
- Implemented Dialogflow for natural language understanding and generating relevant responses.
- Managed user interactions and chat history in MongoDB for tracking and analysis.
- Developed an intuitive chat interface in React and a backend with Node.js and Express.js for managing chat sessions and connecting to Dialogflow.

E-Commerce App - [Internshala Project]

- Developed products, managed images, and created components for display and details. Implemented product rating and search functionality using React and Bootstrap.
- Created sign-in and sign-up screens with JWT-based authentication. Connected to MongoDB for user data management using Node.js and Mongoose.
- Created a cart screen, managed cart actions, and integrated shipping and payment systems, including PayPal, using React, Axios, and the PayPal API.
- Built screens for placing orders, viewing order history, and managing orders with update functionality using React and Node.js.
- Designed an admin dashboard to manage products, users, and orders. Implemented pagination, sorting, and filtering using React, Bootstrap, and Axios.

Twitter-Clone – [Internshala Project]

- Designed a Twitter clone using the MERN stack with JWT based user authentication.
- Build RESTful APIs for user registration, authentication, tweeting, and profile management.
- Created User and Tweet schemas in MongoDB, covering essential fields like usernames, email, passwords, and tweet content.
- Developed a responsive React.js interface with pages for login, registration, home feed, user profiles, and tweet details.
- Included tweet creation, deletion, likes, retweets, following users, and validation for secure and authorized user actions.
